Respicaire®
For Healthier Indoor Air

Why Air Purification?

Clean air is an essential element for vibrant Health....yet...it is also one of the most heavily polluted. Did you know that indoor breathing environments are typically more contaminated than outdoor air? (EPA)* Increased energy costs have made homes, offices & buildings airtight. These confined living spaces trap & concentrate **airborne particulates** like **mold, virus, bacteria, microbials, gases, & VOC's**.....including many that are highly toxic. Modern synthetic materials combined with troublesome microorganisms, contaminate our contact surfaces & indoor breathing environments. Consider the fact that we now spend 90% of our life indoors, living, breathing, & growing in artificial environments. This makes effective indoor air & surface treatment an essential investment.
(* as per EPA studies)

We Contact.

We Breathe.

Did you know that many harmful microbials & pathogens travel & infiltrate through air & common contact surfaces? Washing hands, though recommended, is often insufficient. These trapped indoor contaminants contribute to allergy, asthma, respiratory reactions, illnesses & compromise our immune system.

OXY 4 - 99% Effective on Airborne Micro Organisms

What about Odors and VOC's indoors?

In addition to microorganisms, **modern living spaces trap & concentrate gases, chemicals, odors & VOCs** (volatile organic compounds). These are released via modern synthetics, paints, cleaning chemicals, furniture, carpet and adhesives creating the potential for a harmful or toxic mix.

Up to 90% reduction of many Odors, VOCs and Gases

OXY4 Air Purifier™ - Active Ionic Cleansing - Works 24-7/365 days a year!

At Respicaire®, we specialise in the removal, cleansing, elimination & treatment of airborne & surface particulates, microbials, pathogens, VOCs, gases & odors. Our latest innovation is the OXY 4 Air Purifier™, offering unequalled air cleaning value. It features our advanced ionic oxidation technology to help cleanse & revitalize your entire indoor living & breathing environment. Our technology treats the entire living space regardless of where contaminants may be.

ACTIVE IONIC OXIDATION

RESPICAIRE OXY-QUAD AIR CLEANSING TECHNOLOGY

The Respicaire OXY 4 Air Purifier™ mimics “Mother Natures” air cleansing processes by producing four ionic air oxidizers. These advanced air cleansers - Hydro Peroxides, Hydroxyls, Super Ionized Oxygen & Oxidizing Ions - seek out airborne & surface contaminants to help detox your indoor air. Our OXY QUAD system combines ESA* titanium dioxide with broad spectrum Ultra Violet light. This clever combination creates **Ionic Catalytic Reactions** producing highly effective, natural, oxidative **Air Cleansers**. These “hunter oxidation molecules” migrate throughout the indoor living space – A Highly Effective & Efficient Air Cleansing Process.

*ESA – EXTENDED SURFACE AREA – HIGHEST IN THE CATEGORY

Independently tested for Proven Performance & Solid Purchase Value

All Respicare products are independently tested by 3rd party industry recognized labs. The OXY 4 test results are excellent with **99% kill rates** on some of the most challenging airborne organisms including MRSA, E-Coli, S. Aureus, E. Faecalis, S. Pneumoniae, and more. OXY 4 also provides up to **90% reduction** of many common Odors, VOCs and some chemicals indoors.

MRSA

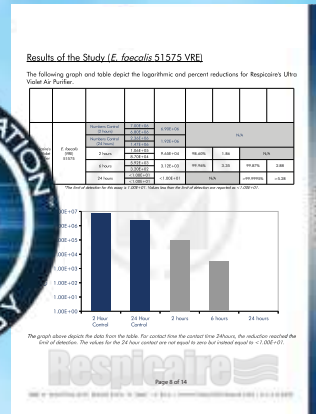

Kill rate 99.98%

Strep P

Kill rate 99.99%

E.Faecalis

Kill rate 99.3%

Bacillus Subtilis

Kill rate 98.1%

Installation Options

Maintenance

Respicare OXY 4 Ultra Violet Air Purifiers feature our catalytic 9000 hour multi spectrum lamps. We recommend annual lamp replacement to ensure optimum performance and air cleansing. For additional inquiries on Respicare products you can contact us at 1-866-876-8044.
